

Yoga Holzrost® Workstation mat

Applications

Yoga Holzrost is suitable for use in dry areas.

Its preferred area of application is around milling and cutting machines and CNC centres and wherever the work involves metal and wood chips.

The benefits at a glance

- Yoga Holzrost is made of ribbed beech wood, at its bottom it has a resilient rubber support which provides strain relief not only for the feet and leg muscles but for the entire body in all situations involving long hours of standing
- Combined with special profiled strips, cargo transport with industrial trucks on and off the grid is not a problem
- Resistant to most common oils and chemicals
- Really hard-wearing as far as pressure and mechanical strain are concerned
- Its surface is slip-resistant and allows metal or wood chips to fall through

Instructions for use and cleaning

- Yoga Holzrost is loose laid and does not require extra fixing
- The wooden grid is easy to sweep or clean with water
- High-pressure cleaners or industrial vacuum cleaners can also be used

Typ B

Typ F

Properties

In conformity with REACH

Slip-resistant

Anti-fatigue

Chemical-resistant

Specifications

Art Nr.:

Sizes: 80 x 1000, 100 x 1000, 150 x 1000 cm
other sizes on request

Thickness: 35, 45, 55, 70, 100 mm

Weight: 15.1 kg/m²

Colour:

beech

Material: beech wood

Surface: ribbed

Typ B: without profile strips

Typ F: with two profile strips and one bevel

Properties

Flame-resistance:

-

Chemical-resistance:

DIN 51958

Maximum slip-resistance:

R11 (DIN 51130)

Effective drain-through and aeration:

V10 (DIN 51130)
